

FIBER INSIDE THE BUILDING—DONE RIGHT.

KNET MICRODUCT SERIES #6

Pre-Cabled Microduct

Indoor microducts with pre-installed optical cable are engineered for efficient fiber deployment.

LSZH Indoor Microduct 8/6mm

Drop Cable 1 core

Cost Effective solutions

Deploying ducts and then installing cables separately can be both costly and time-consuming. Our Pre-Cabled Microduct eliminates on-site cable installation, reducing the risk of handling damage. The cable is pre-installed during microduct production—saving you both time and cost.
